CAREER SUMMARY

Aspiring software engineer with hands-on experience in optimizing interactive platforms and developing tools for data analysis at Microsoft. I'm also part of the Year Up program, which has been an amazing experience in learning application development and business communication. My path includes valuable experiences in customer service within the financial sector, which taught me the importance of accuracy and relationship-building. Dedicated to creating innovative solutions and improving user experiences, I am eager to bring my technical skills and problem-solving abilities to new challenges in the tech industry.
